DETAILED ACTION

Notice to Applicant

1. This communication is in response to the Amendment filed on 10/30/07. Claim 1 has been amended. Claims 10 and 13 have been cancelled. Claims 14-21 have been newly added. Claims 1-9, 11-12, 14-21 are pending.
2. The drawings filed on 7/21/03 have been considered and accepted.

Allowable Subject Matter

- 3 Claims 1-9, 11-12, and 14-21 are allowed. The following is an examiner's statement of reasons for allowance.

Independent claims 1 and 14 are directed to "calculating an acceptable new maximum bid for said search term; determining whether said maximum bid is a justified expense for the advertiser in light of profit determining factors, said profit determining factors comprising an expected return on advertising spend (ROAS) value, a minimum acceptable return on advertising spend (ROAS) value, a maximum return on advertising spend (ROAS) value, a computational linguistics value of the search term, and the new maximum acceptable bid value; determining whether to maintain, modify, or remove a bid for a search term; retrieving information on competitor's bids; identifying desired ranking; preparing an insertion order with an appropriate bid for achieving the desired ranking; and automatically uploading the insertion order to the OMM".

The closest prior art of record, Soulanille (2001/0051940) discloses system and method for influencing a position on a search result list generated by a computer network search engine.

Cheung et al. (2003/0028529) discloses search engine account monitoring.

However, none of the prior art cited above teaches/suggests “calculating an acceptable new maximum bid for said search term; determining whether said maximum bid is a justified expense for the advertiser in light of profit determining factors, said profit determining factors comprising an expected return on advertising spend (ROAS) value, a minimum acceptable return on advertising spend (ROAS) value, a maximum return on advertising spend (ROAS) value, a computational linguistics value of the search term, and the new maximum acceptable bid value; determining whether to maintain, modify, or remove a bid for a search term; retrieving information on competitor’s bids; identifying desired ranking; preparing an insertion order with an appropriate bid for achieving the desired ranking; and automatically uploading the insertion order to the OMM”.

Claims 2-9, 10-11 and 13-21 incorporate the features of claims 1 and 14 through their dependencies, and are also allowed for the same reasons given above.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”
